

RISK AND SAFETY FUNDING.

READY TO HELP THE ADVENTIST CHURCH IN THE SOUTH PACIFIC

BUILDING RESILIENT ADVENTIST COMMUNITIES.

Have you noticed risk and safety issues at your Adventist site that you'd love to see fixed once and for all? Are you concerned about the resilience and sustainability of Adventist mission and ministry at your local Adventist church, school or office?

Risk Management Service is ready to help.

Like you, we care about protecting the longevity of Adventist mission and we want to ensure that the Adventist Church organisation can continue to do its important, community-serving work until Jesus returns.

RMS' Risk and Safety Funding initiative is designed to help you solve risk and safety-related issues at your Adventist site. This initiative is based on a collaborative approach to develop tailored risk and safety solutions that work best for you.

However, we're not here to micro-manage risk and safety at your organisation – an organisation you know better than we do. Instead, our goal is to work side-by-side with you to empower your risk and safety efforts. We're here to help you connect with resources, suppliers, advisors, networks and of course, funds that contribute to better risk and safety outcomes.

Importantly, we are not simply “giving away” money. This is a considered investment - by both of us - to protect the mission of the Adventist Church and our members, employees, students, customers, patients, volunteers and visitors that participate in that mission. Insurance alone is not enough to achieve that goal; that's why we're dedicated to finding ways to reduce hazards and improve safety so we can help build resilient Adventist communities.

So, we invite you to combine your investment with our investment; your expertise with our expertise. Will you consider joining forces with us to protect the mission of your Adventist community?

WHAT PROJECTS COULD BE ELIGIBLE?

- Strategic risk and safety management systems (eg. a system of policies, procedures and hazard management).
- Risk and Safety Training
- Risk prevention and/or safety equipment that directly addresses a risk or safety issue.
- Safety initiatives that result in injury prevention, lower claims costs and improved Return to Work outcomes.
- Initiatives that reduce the frequency and severity of injuries.

**READY TO TALK?
WE'RE READY TO LISTEN.**

HERE'S THE FINE PRINT...

Details you need to know about the Risk and Safety Funding program.

1. Funding is available to eligible Seventh-day Adventist Church organisations in the South Pacific Division territory.
2. Funding is for new projects that address a risk or safety issue as described in this brochure.
3. Projects that appear to only address maintenance issues may be ineligible for funding under this program.
4. Funds are budgeted on an annual basis (financial year), which means that while a potentially eligible project may not receive funds this year, there may be opportunity for funding in a subsequent year.
5. All applicants must be willing to contribute some of their own funds towards the project.
6. Project acquittal is a requirement for reimbursement. All applicants must be willing to provide receipts, invoices, quotes and photos to RMS to confirm that funds were applied for the specific purpose.
7. All applicants must be willing to share resources developed from the funding to other SDA Church organisations within this Division.
8. Projects must not be in conflict with other Church policies, procedures or priorities and before funding is approved RMS may seek approval from your organisations next highest authority, if necessary. For example, if the request for funding is from a school we may discuss the proposal with the local Adventist entity governing that school.
9. RMS may require progress reports from the managers/coordinators of approved projects and may request costs, photographs and outcomes to be included in those reports.

READY TO HELP

Risk Management Service is a dedicated service department of the Seventh-day Adventist Church in the South Pacific.
